Plants That Attract Hummingbirds (2012)

From early Spring through late Fall, the garden can be made an inviting destination for hummingbirds by planting an array of flowering annuals and perennials to provide them nectar as they go about their daily business. Though not exhaustive, the following list includes many plants known to be attractive to hummingbirds. We carry all of these at Mary's Greenhouse.

Abutilon (Flowering Maple) (Annual)	Lantana (all) (Annual)
